

*Considering SharePoint 2010? Want to harvest more value from 2007?*

*"We are pleased to recognize MicroLink for their successful implementations of Microsoft's SharePoint Server technology on a global basis."*

*-CIO of Leading Financial Services Company*

### The SharePoint Jumpstart accelerates the:

- Establishment of a security & identity framework
- Establishment of a site hierarchy & site collections
- Establishment of an extensible Hardware Infrastructure plans
- Knowledge transfer of the Server Platform
- Documentation of the SharePoint Server and SQL Database configurations
- Plan data, content, document migration
- Design of a SharePoint Roadmap
- Adoption

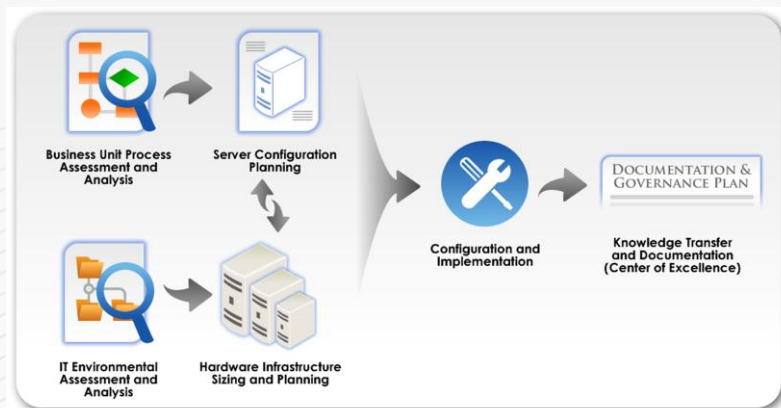

MicroLink's SharePoint Jumpstart program accelerates an organization's ability to derive real business value from the platform by:

- Establishing a forward looking security & identity framework
- Establishing site hierarchy & collections
- Establishing an extensible Hardware Infrastructure plan for 24 to 36 months
- Providing thoroughly documented scripts for the SharePoint Server and SQL Database configurations
- Plan data, content, document migration from other systems (including 2003 and 2007)
- Accelerate knowledge transfer among your IT and business unit team members
- Establish a framework for Governance tailored to your organization's requirements
- Provide a clear roadmap for the platform based on your organization's schedule and needs

### Common Jumpstart Scenarios

MicroLink offers a SharePoint Jumpstart for four common scenarios:

- New SharePoint licensees needing technical leadership for the implementation
- Existing licensees repositioning SharePoint to better serve the organization's requirements
- Long-time users of SharePoint seeking to extend the platform to serve multiple audiences or multiple purposes
- Existing clients wanting to improve their system effectiveness or plan for a major upgrade to SharePoint 2010

*MicroLink's SharePoint Jumpstart Process*

**The Jumpstart  
accelerates the rate at  
which your enterprise  
can derive business  
value from the  
platform.**

**Outcomes include:**

- Successful initial implementation
- Clearly identified roadmap with contingencies
- Environment assessment and implementation recommendations
- Configured Product Ready Environment
- Action plans, next steps
- Reach back support to MicroLink SMEs

## **Enterprise Portal and Web Publishing**

MicroLink consultants have extensive experience in designing and delivering a range of SharePoint portal solutions for:

- Document and records management
- Training and knowledge sharing
- Communication and project coordination
- Performance management and business intelligence
- Marketing and advertising
- Product research and development
- Customer service and support
- Enterprise search and information discovery
- Web publishing

...and many others

MicroLink is an industry leading Solutions Development and Services Company with focused expertise in Microsoft enterprise solutions. MicroLink's customers span the defense, government, and commercial markets. MicroLink's solutions range from combat zone military units and enterprise government portals to large scale commercial corporate messaging systems for customers including the Federal Deposit Insurance Corporation (FDIC), U.S. Joint Forces Command, ITT Advanced Wireless Services, Airbus, the Federal Energy Regulation Commission (FERC), the U.S. Department of Education, and the U.S. Department of State.

The company is a Microsoft Gold Certified Partner. MicroLink was named the Microsoft DOD Partner of the year for 2006 and 2007, the Autonomy Global Partner of the year for 2007 and received the Microsoft Repeatable Solution Award for 2008.

The next time a Jumpstart scenario presents itself, allow MicroLink to show you how we earn our reputation as a Certified Microsoft Gold Partner on a daily basis.
